

**Amendments to the Specification:**

Please replace paragraph [0014] with the following amended paragraph:

[0014] As shown, carbon bottom 308 has an inner edge 510 defining an opening 512 into which titanium portion 304 fits. In particular, outer wall 312 has a top edge 514 proximate inner edge 510. Tabs 502 extend radially outward from top edge 514 over inner edge 510 and over a portion of carbon bottom 308. An adhesive layer 504 between tabs 502 and carbon bottom 308 couples titanium portion 304 to carbon portion 302. FIG. 6 is identical to FIG. 5 ~~FIG. 6~~, but shows carbon portion 302 and titanium portion 304 in side-by-side orientation for clarity.
